TECHNICAL DATA SHEET

RACINE — Non-Alcoholic Spirit

Product Description

Racine is a non-alcoholic spirit crafted in Montréal through distillation in our still. Made from premium-quality fresh ingredients, this hydrosol offers a complex aromatic profile, combining the warmth of ginger, the spicy notes of Flaming Flare chili pepper, the delicate anise-like character of star anise, the sweetness of vanilla, and the intense aromas of clove.

Designed for non-alcoholic mixology, Racine brings depth, character, and aromatic complexity to classic cocktails.

Product Specifications

- **Product Name:** Racine
- **Category:** Non-alcoholic spirit
- **Product Type:** Distilled hydrosol
- **Place of Manufacture:** Montréal, Québec, Canada
- **Appearance:** Clear, transparent liquid
- **Aromatic Ingredients:** Ginger, Flaming Flare chili pepper, star anise, vanilla, and clove
- **Production Method:** Distillation in a still using premium-quality fresh ingredients
- **Alcohol Content:** 0.0% ABV

Mixology Applications

Racine is ideal for creating non-alcoholic versions of classic cocktails, including:

- Moscow Mule
- Piña Colada
- Whisky Sour

It can also be used to develop original creations, signature beverages, and non-alcoholic cocktails with complex, spicy aromatic profiles.

Projet Pilote

Appearance and Stability

The product initially has a clear and transparent appearance. Over time, sediment or slight cloudiness may develop. This natural phenomenon is associated with the separation of essential oils present in the product.

This visual change may occur during storage and does not necessarily indicate that the product has deteriorated.

Storage

Store in a tightly sealed container, away from light and heat. Once opened, the product can be stored for **six months when refrigerated**.
