TECHNICAL DATA SHEET

BOTANIQUE — Non-Alcoholic Spirit

Product Description

Botanique is a non-alcoholic spirit crafted in Montréal through distillation in our still. Made from premium-quality fresh ingredients, this hydrosol showcases a complex bouquet of fresh, herbal, and botanical notes. Dill, hops, sage, rosemary, mint, cucumber, snap peas, thyme, orange zest, and Sichuan pepper come together to create a balanced aromatic profile combining freshness, vibrancy, and refinement.

Designed for non-alcoholic mixology, Botanique adds depth and complexity to classic gin-inspired cocktails while offering a distinctive aromatic experience.

Product Specifications

- **Product Name:** Botanique
- **Category:** Non-alcoholic spirit
- **Product Type:** Distilled hydrosol
- **Place of Manufacture:** Montréal, Québec, Canada
- **Aromatic Ingredients:** Dill, hops, sage, rosemary, mint, cucumber, snap peas, thyme, orange zest, and Sichuan pepper
- **Production Method:** Distillation in a still using premium-quality fresh ingredients
- **Alcohol Content:** 0.0% ABV

Mixology Applications

Botanique is particularly well suited for creating non-alcoholic versions of classic cocktails, including:

- Southside
- Cucumber Gin and Tonic
- Tom Collins

It can also be used to create signature cocktails, refreshing beverages, and original recipes that highlight botanical aromas, herbal notes, and citrus nuances.

Appearance and Stability

The product has a clear and transparent appearance. Sediment may develop over time. This is a normal phenomenon resulting from the natural evolution of the product’s aromatic components during storage.
