TECHNICAL DATA SHEET

ÉCLAT — Non-Alcoholic Spirit

Product Description

Éclat is a non-alcoholic spirit crafted in Montréal through distillation in our still. Made from premium-quality fresh ingredients, this hydrosol showcases the aromatic richness of fruit, combining the delicate notes of Québec strawberries, lemon, grapefruit, raspberry, blueberry, and cantaloupe with the freshness of lemongrass and the spicy nuances of cumin.

Fruity, fresh, and expressive, Éclat is designed to bring complexity, balance, and refinement to non-alcoholic cocktails, offering an aromatic experience inspired by classic mixology.

Product Specifications

- **Product Name:** Éclat
- **Category:** Non-alcoholic spirit
- **Product Type:** Distilled hydrosol
- **Place of Manufacture:** Montréal, Québec, Canada
- **Aromatic Ingredients:** Québec strawberries, lemon, grapefruit, raspberry, blueberry, cantaloupe, lemongrass, and cumin
- **Production Method:** Distillation in a still using premium-quality fresh ingredients
- **Alcohol Content:** 0.0% ABV

Mixology Applications

Éclat is particularly well suited for creating non-alcoholic versions of classic cocktails, including:

- Clover Club
- Bramble
- Cosmopolitan

It can also be used to create original cocktails, signature beverages, and non-alcoholic recipes that highlight fruity aromas, citrus notes, and botanical nuances.

Appearance and Stability

The product has a clear and transparent appearance. Sediment may develop over time. This is a normal phenomenon resulting from the natural evolution of the product’s aromatic components during storage.
